

§ 240.31-1

17 CFR Ch. II (4-1-03 Edition)

(1) The Commission's authority or discretion to provide or refuse to provide access to, or copies of, nonpublic information in its possession in accordance with such other authority or discretion as the Commission possesses by statute, rule or regulation; or

(2) The Commission's responsibilities under the Privacy Act of 1974 (5 U.S.C. 552a), or the Right to Financial Privacy Act of 1978 (12 U.S.C. 3401-22) as limited by section 21(h) of the Act.

[58 FR 52419, Oct. 8, 1993]

§ 240.31-1 Securities transactions exempt from transaction fees.

PRELIMINARY NOTES

1. The section 31 fee for options transactions occurring on a national securities exchange, or transactions in options subject to prompt last sale reporting occurring otherwise than on an exchange (with the exception of sales of options on securities indexes) is to be paid by the exchange or the national securities association itself, respectively, or by The Options Clearing Corporation on behalf of the exchange or association, and such fee is to be computed on the basis of the option premium (market price) for the sale of the option. In the event of the exercise of an option, whether such option is traded on an exchange or otherwise, a section 31 fee is to be paid by the exchange or the national securities association itself, or The Options Clearing Corporation on behalf of the exchange or association, and such fee is to be computed on the basis of the exercise price of the option.

2. The section 31(d) assessment on a round turn transaction on a security future traded on a national securities exchange, or by or through a member of a national securities association otherwise than on a national securities exchange, is to be paid by the exchange or the national securities association itself, respectively, or by The Options Clearing Corporation on behalf of the exchange or association, and such assessment is to be computed on the basis of the number of contracts of sale for future delivery traded on such exchange or by or through any member of such association otherwise than on an exchange. In the event of the physical

settlement of a security future, a section 31 fee is to be paid by the exchange on which the round turn transaction on the security future was traded, or, if the round turn transaction on the security future was traded by or through a member of a national securities association otherwise than on a national securities exchange, by the association, or by The Options Clearing Corporation on behalf of such exchange or association. Such fee, whether paid under section 31(b) or section 31(c), is to be computed on the basis of the price received by the seller in exchange for delivery of the security or securities underlying the security future. The obligation to pay fees under section 31(b) or (c) does not accrue until the time that physical delivery occurs.

The following shall be exempt from section 31 of the Act:

(a) Transactions in securities offered pursuant to an effective registration statement under the Securities Act of 1933 (except transactions in put or call options issued by the Options Clearing Corporation) or offered in accordance with an exemption from registration afforded by section 3(a) or 3(b) thereof (15 U.S.C. 77c(a) or 77c(b)), or a rule thereunder;

(b) Transactions by an issuer not involving any public offering within the meaning of section 4(2) of the Securities Act of 1933 (15 U.S.C. 77d(2));

(c) The purchase or sale of securities pursuant to and in consummation of a tender or exchange offer;

(d) The purchase or sale of securities upon the exercise of a warrant or right (except a put or call), or upon the conversion of a convertible security;

(e) Transactions which are executed outside the United States and are not reported, or required to be reported, to a transaction reporting association as defined in § 240.11Aa3-1 (Rule 11Aa3-1 under the Act) and any approved plan filed thereunder;

(f) Sales of options on narrow-based security indexes; and

(g) Round turn transactions in futures on narrow-based security indexes.
